Cookie Policy

This Cookie Policy aims to explain the types and purposes of the cookies used by this website.

What are cookies?

Cookies are small text files that websites visited by the user send to their device (computer, smartphone, tablet), where they are stored and then sent back to the same websites during subsequent visits. Cookies allow the website to function properly and improve the browsing experience.

They are mainly divided into:
- **Technical cookies:** required for the website to function and do not collect data for commercial purposes.
- **Profiling cookies:** used to create user profiles and deliver targeted advertising.
- **Third-party cookies:** installed by external services (e.g., Google, Facebook, YouTube).
-

This website uses **only the first category (technical cookies)**.

Cookies used on this website

This Website uses cookies commonly referred to as "technical cookies" or other similar Tracking Tools to perform activities strictly necessary to ensure the operation or provision of the Service.

Cookie	Type	Expiration	Descrizione
PHPSESSID	First-Party	Session	Cookie generated by applications based on the PHP language. This is a general purpose identifier used to maintain user session variables. It is normally a random generated number, how it is used can be specific to the site, but a good example is maintaining a logged-in status for a user between pages.
cb-enabled	First-Party	1 year	This cookie is associated with a free script which shows a cookie alert notice on a website. It is used to record when the user has dismissed the notice to prevent it re-appearing on return visits.

Managing Cookies via Browser Settings

Although this website uses only technical cookies, users may still choose to limit, block, or delete cookies through their browser settings.
However, doing so may affect the proper functioning of the website.

Below are links to instructions for major browsers:
